

International Taxation Conference

December 3 – 5, 2009

(Organized by the Foundation for International Taxation)

The International Taxation Conference is organized each year since 1995 by Professor Roy Rohatgi. Over the years it has established itself as one of the leading technical conferences on the subject internationally. This highly successful “Bombay Conference” is run by an independent not-for-profit foundation set up by him along with leading Indian professionals. As a registered charitable trust it needs financial support to organize the conference and its activities.

Besides support for the Foundation’s objectives, this conference offers an excellent opportunity to sponsors to market and network themselves with senior tax professionals in India and abroad. It is a truly international conference and prides itself on the high quality of its technical content and organization. At the 2008 Conference, there were over 300 participants from India and abroad. They comprised leading professionals (e.g. accountants and lawyers), finance executives from industry and commerce and senior Indian tax officials. They constitute both a group of high net worth individuals as well as persons of influence within the business community. We expect around 400 - 450 delegates this year. We invite you to join us at this conference as a sponsor. Details of the sponsorship schemes and the sponsorship form are attached. We will send you the remittance instructions when we receive your completed form. (Please note the amounts specified on the form are exclusive of Indian service tax at 10.3%. No service fee is payable by foreign sponsors; Indian sponsors pay under reverse charge and claim an input credit)
